Paducah Plant First Aid Team Points For Meet

**Good Showing Expected
Despite Inexperience;
14 Y-12 Teams Drilling**

First aid training has been an established practice in plants of Carbide and Carbon Chemicals Company for many years and has become an integral part of the training programs at these installations. It was inaugurated in Oak Ridge in 1944 at the K-25 plant and when Carbide took over operations at Y-12 and the Oak Ridge National Laboratory first aid training was launched at these units.

Former Y-12ers In Charge

So it was right in line that shortly after Carbide began organizing its personnel for the operation of the new Paducah plant of the Atomic Energy Commission that first aid training was launched there. Roy N. James, formerly supervisor of the Y-12 Training Department and now occupying a similar position at Paducah for Carbide, is in charge of the first aid instruction work there.

In a message to The Bulletin last week, James confirmed an earlier announcement that the Paducah plant would be represented in the fifth annual Carbide First Aid Contest here on Saturday night, September 15, at Blankenship Field.

Team Practicing Two Weeks

"Our team has only been practicing for about two weeks," James said, "although all the members have been given the regular 15-hour first aid training courses. None of the team members has ever had experience in contests such as presented by Carbide, but we expect to make a good showing in the event."

James is being assisted in training the Paducah first aid team by W. J. Cruce, another former Y-12er in the Training Department. Both will accompany the team here for the contest.

14 Y-12 Teams Drilling

Meanwhile all of the 14 Y-12 teams are diligently practicing for the September 15 contest. Groups represented include the Analytical Chemistry Division, Isotope Research and Production Division, Electrical Maintenance, Field Maintenance, Chemical (women's team), Buildings and Grounds, Manufacturing Office Division, Health Physics, Maintenance Shops, Fire Department, Plant-Wide Women's team, and teams A, B and C from Dept. 2618, Chemical Division.

Camera Club To Hear Talk On Movie Making

A former Y-12er, Charles S. Harrill, now superintendent of the Oak Ridge National Laboratory Instrument Department, will speak at the next meeting of the Carbide Camera Club, scheduled for next Tuesday night, September 11. The meeting will be held at 7:30 o'clock in club headquarters in the Y-12 East Portal Building.

Harrill, past president of the Oak Ridge Cinema Club, will speak on techniques and problems connected with making amateur moving pictures. To illustrate his talk he will use one of his own movies to demonstrate such points as scene lengths, tilting techniques, panning, advantages and disadvantages of eight and 16 millimeter film and other aspects of movie making.

The monthly club competition will be for black and white prints of pictures taken on the Camera Club field day trip last month in Knoxville.

A-Powered Submarines Won't Soar Into Air

Newsweek Magazine recently pointed out that speeds up to 35 knots per hour—as fast as a high-speed battleship—predicted for atomic-powered submarines, have created problems similar to those faced by airmen a few years ago when they switched to jet and rocket-powered planes. For instance, it is figured that the speedy submarines will have a tendency to "porpoise" out of the water. However, the Navy, by using small-scale models in experiments, feels it has most of the problems licked. The new design provides for the new submarines to be fat and stubby in shape like tuna fish.

East Portal Parking Lot Seen Ready For Use Next Monday

Completion and occupancy of the new Y-12 East Portal parking area by next Monday will be welcomed by employees using that facility after two months of temporary parking on the hillside area back of the garage building. Paving of the regular parking lot was completed last week and it was to be inspected and then marked off the latter part of this week and expected to be ready for use for Y-12 motorists Monday morning.

Chemical Engineers To Meet Thursday Night At ORINS

All chemical engineers in Y-12 and members of the Knoxville-Oak Ridge Section of the American Institute of Chemical Engineers, are invited to a meeting of the group to be held at 8 o'clock Thursday night, September 6. The meeting will be held in Room 20, Oak Ridge Institute of Nuclear Studies building, behind the Atomic Energy Commission administration building.

Prof. B. L. Baker, chairman of the chemical engineering division of the University of South Carolina, will speak at the session. His topic will be "Recent Developments in Halogenation." Professor Baker also is consultant for Halogen Chemicals, Inc., Columbia, S. C.

Aureomycin Reported Remedy For Radiation

The Science News Letter recently stated that patients suffering from radiation sickness after X-Ray treatments, and perhaps future atomic bomb victims, can be helped by aureomycin, one of the so-called mold drugs. Good results from these drugs have been reported by two New York physicians, Drs. Isidore Arons and John W. Freeman, in treatment of five patients.

Traffic Congestion Eliminated

Resumption of parking in the regular space will eliminate the traffic congestion that has resulted at shift changes because of the limited exit room at the temporary lot. Of course, automobiles again will be parked closer to the place of work of Y-12ers in the east end of the plant area.

Work on the parking lot paving project was started July 9 and the rainless days of the summer enabled the contractor to complete the project with a minimum amount of delay. Harrison Construction Co., Maryville, Tenn., were contractors on the project, which cost \$33,777.

Will Accommodate 178 Vehicles

The new layout of the East Portal lot will accommodate 178 vehicles. Parking will be at a 45-degree angle and the paving, curbing and walks are similar in construction details to the facility at the North Portal, which was remodeled last year.

MEDICAL CENTER PLANNED

The Los Angeles Times has announced that the University of California at Los Angeles will start work soon on a medical center, designed to set a pattern for medical schools in the Atomic Age. Dr. Stafford L. Warren, former medical chief of the Atomic Energy Commission, will be dean of the new center.

C. U. Withdrawals Need Day's Notice

Because of the paper work required, members of the Y-12 Employees Credit Union must wait for 24 hours after requesting withdrawal of their investment in credit union shares before receiving checks for the amount, it has been announced by Joe Williams, president of the organization.

Williams explained that checks for withdrawals must be signed by both the treasurer, Mrs. Lorena Causey, and himself and that he has to perform this task after working hours. Time also is required to post the transaction on the credit union books, he pointed out.

Therefore, Williams has asked that any member desiring to withdraw money from the credit union to communicate with the organization's office in Bldg. 9704-2, telephone 7504, giving name and badge number (which is the member's account number). The applicant then may obtain a check for the amount requested the following day.

Beta-Ray Activity Theory Topic Of Seminar Meeting

"The Theory of Beta-Ray Activity" will be discussed at a meeting of the Oak Ridge Physics Seminar at 4 o'clock Friday afternoon, September 7. The meeting will be held in the East Lounge of the Ridge Recreation Hall.

Prof. S. R. deGroot, of the University of Maryland, will be the principal speaker at the seminar session. Y-12ers interested in the subject are invited to attend.

Minor League Groups' Absenteeism Drops

The Minor League of departments in Y-12 with from 15-49 employees scheduled showed a decrease of .5 per cent in absenteeism for the week ending August 26 but the Major League of departments with more than 50 employees had an increase of .2 per cent and the plant-wide average was .1 per cent over the previous week, being 2.7 per cent.

Research Services rose from third place to first place in the Major League for the latest reporting period, having 1.8 per cent of its personnel absent. The Guard Department, in first place for the week ending August 19, dropped to second and reported an absentee mark of 1.9 per cent. Field Maintenance turned in an absentee report of 2.27 per cent to take third place, an advance from sixth.

As was the case for the week ending August 19, six Minor League departments reported all present figures for the week ending August 26. Property Sales and Employee Relations advanced from fourth and 12th places to join the four repeaters from the previous week—Steam Plant, Cafeteria and Canteen, Superintendents and Tools. Uranium Control and Computing rose from sixth place to second and had only .4 per cent absenteeism and third place was held by the Laundry with an absentee record of .8 per cent.

The plant-wide absentee record for the week ending August 26, by departments, follows:

MAJOR LEAGUE			
Dept.	More Than 50 Employees	Scheduled Percentage Absent	Standing
2018	1.8	51	3
2091	1.9	2	1
2015	2.27	3	6
2077	2.31	4	8
2617	2.33	5	7
2619	2.4	6	2
2282	2.5	7	10
2014	2.6	8	9
2003	2.8	9	5
2283	3.1	10	4
2618	3.2	11	11
2001	3.5	12	14
2060	4.6	13	13
2142	7.4	14	12

Group absentee percentage was 2.8 per cent, .2 per cent higher than the preceding week.

MINOR LEAGUE			
Dept.	15-49 Employees	Scheduled Percentage Absent	Standing
2743	0.0	1	1
2107	0.0	1	1
2200	0.0	1	1
2144	0.0	1	1
2145	0.0	1	4
2109	0.0	1	12
2739	0.4	2	6
2096	0.8	3	8
2133	1.1	4	1
2108	1.21	5	2
2046	1.7	6	14
2093	1.21	5	3
2008	1.8	7	5
2005	2.5	8	1
2616	2.6	9	13
2143	3.3	10	9
2002	4.7	11	7
2090	4.8	12	10
2064	8.6	13	11

Group absentee percentage was 1.9 per cent, .5 per cent lower than the preceding week.

The plant average for the week ending August 26 was 2.7 per cent, .1 per cent higher than the preceding week.

CORRECTION IS MADE IN ATTENDANCE STORY

Through error it was stated in The Bulletin last week that Dept. 2618 of the Chemical Division was in third place in the Major League in the attendance standings. Dept. 2018, Research Services, was the third place department last week.

Down in the Lone Star State 'tis said they are now singing—
"Deep In The Heat Of Texas."

Roy Byrd's co-workers in Plant Engineering extend congratulations to him and his wife, Betty, a former Y-12er of the Analytical Laboratory, who are the proud parents of a baby boy, Charles Emmon, born at the Oak Ridge Hospital on August 23, weighing six pounds and 11 ounces.

Eunice Webster, of Plant Records, is vacationing in Miami, Fla., this week. . . . Bobbye Jean Jesse spent a recent week end at her home in Athens, Tenn., visiting with her folks and a brother who was home from California. . . . Phyllis Finneran spent the week end visiting friends in New York. . . . The department wishes a speedy recovery for Helen Burkhalter, who was entered in the Fort Sanders Hospital last week to undergo a tonsillectomy. . . . Dorothy Conner is vacationing this week with her mother and a sister in Chattanooga. . . . Reva Dagley and Bobbye Jean Jesse, with her husband, attended the play, "Unto These Hills," in Cherokee, N. C., last Friday p. m.

B. F. Robinette, of the Guard Department, has returned from a week's vacation. . . . L. A. LeRue and C. R. Lively are on a two-week vacation.

W. Johnson, of Maintenance Utilities, is off on a two-week vacation.

Field Maintenance has a host of vacationers, and those who are off this week include A. G. Stooksbury, A. I. King, H. J. Tate, H. A. Garrett, K. C. Fritts, L. L. Hamlin, and W. J. Rollins. . . . The two-week vacationers are C. L. Steppe, J. T. Thomas, E. W. Woodward, Clifford Holt, E. C. Ward and T. E. Shaw. . . . A speedy recovery is wished for J. B. Gray, who is in the Baptist Hospital in Knoxville. C. J. Beckett and C. M. Collette, who are ill at home.

John T. Carriker, Dept. 2618 in Chemical, and his family are on vacation this week—John says he plans to pack a couple of years of fun into one short week. They planned to take in the stock car races at Darlington, S. C., and to spend a portion of their time at Myrtle Beach, S. C., making the return trip via Jacksonville, Fla. . . . R. G. Gollhofer is moving his family to Oak Ridge from St. Louis, Mo. They will live at 141 Marietta Circle and the members of the department hope they will be happy in their new home.

Jean Williams, of the Chemical Department, and her husband are vacationing in Memphis, Tenn., this week. . . . D. W. Davis is spending a two-week vacation at home in Chilhowee, Va. . . . M. E. Kerney is spending this week's vacation in Kingsport. . . . John Kennedy is taking it easy at home in Clinton this week. . . . Ferd Stroupe is spending his week of vacation around home in Oak Ridge.

Irene Turner, of Manufacturing Office, and her husband are on vacation this week. They stopped in Charlottesville, Va., to get Irene's mother and from there went on to Flint, Mich., and other points north. . . . Loretta Johnson is vacationing at home in Clinton. . . . Kay Steed and her husband are visiting her folks in Union City, Tenn., and his family in Cleveland, Miss., this week.

Norma Mayes, of the Fire Department, spent last week vacationing at Daytona Beach, Fla. . . . Capt. W. R. McGill spent most of his time at home in Maryville while vacationing last week.

"Fiz" Tucker, of the Cafeteria Department, is spending a two-week vacation in various parts of Alabama. . . . Ed Frye attended a horse show in Shelbyville, Tenn., while on his two-week vacation. . . . George McNamee and his

family have returned from a two-week vacation in Romney, W. Va. Christine Boyd, of the Janitors Department, is spending two weeks of vacation in Detroit and Flint, Mich.

Larry Parsons, of the Y-12 Electromagnetic Research Division, has a lot of friends in Y-12 who are happy with him and Mrs. Parsons over the return to the United States of their son, Cpl. Jack Parsons, 19, after 11 months of hard duty with the Marines in Korea. Corporal Parsons telephoned his folks on arriving at the Marine base at Mare Island, near San Francisco, Cal., and said he was expecting to be sent to the Great Lakes, Ill., naval hospital, over the Labor Day week end. After an examination there, the young Marine told his parents he expected a medical discharge or a long sick leave. The Parsons have another son, Sgt. Larry Parsons, 21, serving with the 194th Engineer Combat Battalion, Oak Ridge, now serving in Korea.

Madeline Franklin, of Uranium Control and Computing, vacationed last week at her home in Hickory, N. C. . . . Bill Belvin and his family spent last week's vacation in Chattanooga. . . . Nancy Garrison and Phyllis Johnson have returned from a two-week vacation trip to Canada. . . . Flora Coefield spent the week end at her home in Birmingham, Ala. . . . Virginia Swann went home to Athens, Ala., for the holiday week end. . . . Elizabeth Wilson was at her home in North Carolina, over the Labor Day holidays. . . . Ann Weissinger spent the week end with her folks in Utah, Ala.

Juanita Hendon, of the Assay Laboratory, was on vacation last week—it is rumored that she took a trip to Iowa. . . . Doris Brogan was home in Middlesboro, Ky., over the week end visiting with a sister from Boston, Mass., and a brother who was on a week-end leave from the Navy. . . . Cecil Hurtt visited her folks in LaFollette over the Labor Day holidays. . . . Belle Thompson spent the week end with her mother in Union Springs, Ala. . . . Mattie Anderson was at her home in Pennington Gap, Va., over the week end holiday. . . . Helen Jeune visited her folks over the week end in Montecagle, Tenn. . . . Glenn Curtis was at home in Corbin, Ky., over the week end. . . . Helen Hicks drove to Jacksonville, Fla., for the holiday week end. . . . Mary Katherine Young visited her brother, who is in the Marine Corps, stationed at Paris Island, S. C., over the week end. . . . Dora Whaley is

Mrs. Floyd Braden, Jr.

BRADEN - SMITH

Mrs. Sylvia Smith, of the Y-12 Cafeteria, has announced the marriage of her daughter, Miss Shirley Faye Smith, to Floyd Braden, Jr., of Knoxville. The marriage was solemnized at noon August 4 at the home of the bride at Lake City, Tenn., by the Rev. Jonah Phillips.

The groom is the son of Mrs. Nellie Byrd, Briceville, Tenn.

The bride was given in marriage by her uncle, Charles Stocks. At her wedding she wore a white, street-length, embroidered eyelet dress with blue accessories and carried a bouquet of red roses on a white prayer book.

Wilma Smith, sister of the bride, was maid of honor and wore a navy blue, street-length dress with pink accessories. She carried a nosegay of pink roses.

Best man was Ernest Allen, of Briceville, Tenn.

The couple is living in Briceville.

spending her two-week vacation on a tour of the New England States and Canada. . . . Virginia Hill spent the Labor Day week end in Corbin and London, Ky.

Marie Ramos, of Personnel, is spending her week's vacation with her parents in Wilmington, Del.

The Property Department extends get-well wishes to Ruth Merrell. . . . Noah Ensor visited his folks in North Carolina while on vacation last week. . . . J. M. McMaster and his family vacationed in Jackson, Tenn., last week.

J. C. Bresnahan, Sr., of Planning and Estimating, is looking 10 years

6-3343

PATRICIA THORPE, DAUGHTER OF JIM THORPE IN THE Y-12 Maintenance Shops, gave a "going away to college party" for a number of high school girl friends at her home August 23. Several of the young women are daughters of Carbide employees. In the group picture of the guests, Miss Thorpe is second from left in the rear. Others shown are Caroline Finchum, Sara Colbert, Barbara Hopkins, Barbara Eakes, Mary Anna McCollum, Anna Clare Williams, Dana Mitchel, Mary Lou Peters, Peggy Ann McMillan, of Knoxville; Betty Arms, of Murfreesboro; Nellie Hooper, Faye Sharp, Tina Jo Warner and Barbara Howe.

The following Y-12 employees were patients at the Oak Ridge Hospital last week: Lloyd A. Michaels and Kirby Duke, Dept. 2618, Chemical; Arville E. May, Alfred Stockton and Willie Pitchford, Buildings and Grounds; Lillie B. Bible, Product Processing; Claude O. Jones and Perry R. McCormack, Electrical Maintenance; Bernard L. Strehler, Biology; Willie C. Williams, Janitors; William H. Rice, Plant Engineering; Samuel G. Dornan and George W. Boggs, Guard Department.

Four Y-12 employees were listed as parents of babies born last week at the Oak Ridge Hospital. They were Boyd Weaver, Isotope Research and Production, boy, August 26; Leonard Bledsoe, Maintenance Shops, girl, August 26; John R. Gordon, Maintenance Shops, girl, August 27; and Abe L. Snapp, Maintenance Shops, girl, August 30.

younger since the recent vacation he and the family spent at Daytona Beach—his friends say.

J. D. Hayes, of the Stores Department, and his family spent last week's vacation in Kentucky. . . . J. T. Creasman is spending a two-week vacation at home in Oak Ridge.

Fred Sherrod, of Receiving and Shipping, started off his two-week vacation by attending the men's state softball tournament in Chattanooga.

P. I. Fawver, of the Tools Department, is vacationing at home in Bynington this week. . . . C. L. Stucky is on a week of vacation at home in Oak Ridge.

Electrical Maintenance welcomes Barbara Paul to the roster. . . . The department wishes the best of luck to Grace Tramel who has resigned to join her husband in Aiken, S. C. . . . J. H. Campbell vacationed last week at home in Oak Ridge. . . . C. B. Newman is visiting Detroit, Mich., Canada, and points north while on a two-week vacation. . . . E. K. DeLong, R. E. Lanter, U. L. Alspaugh, F. A. Dodd and O. C. Collins were among the vacationers last week. . . . C. O. Johnson reported back after a two-week vacation.

Maintenance Shops extends congratulations to J. R. Gordon who became the proud papa of a baby girl on August 27. . . . Congratulations go to L. R. Bledsoe who is also the proud papa of a baby girl, born on August 26.

Dan Nicholson, of the Material Chemistry Division, has been vacationing at his home in Texas. . . . Claude Croft and his family have returned from a week's vacation in Detroit, Mich. . . . Hank Buttram plans to catch up on his fishing in the stream which runs through his back yard on Beaver Ridge—while vacationing this week. . . . N. V. Smith is vacationing in New York, this week, where his wife and her sister preceded him. They will make the return trip together.

Helen Ivens, of Health Physics, is spending two weeks of vacation at Miami Beach, Fla. . . . Rudy Pletz was on vacation last week at home in Oak Ridge. . . . The department extends sympathy to Ed Flasterer on the recent death of a brother in Nashville. . . . Also sympathy to Nell Gillum whose grandfather passed away last week in Mississippi. . . . The department was sorry to lose Wilma Brock who terminated last week.

Congratulations to Boyd Weaver, of the Isotope Research and Production Division, at the birth of a baby boy, born on August 26, at

Continued on Page 4

11 Plant Softball Teams Competing For Title In Tourney; Finals Are Set For September 18

Y-12 Plant Softball League teams, plus an added starter in the form of an independent team, were scheduled to open its annual dog-fight, double-elimination tournament on Tuesday night of this week. The tournament schedule lists a total of 20 or 21 games with two or three games set nightly at the Midtown park until the title is decided.

In such a tournament, picking a favorite is a dangerous pastime for the odds givers and takers, as it is one of those "anything can happen and generally does" affairs. There is hardly a team in the league that cannot, on occasion, rise up and smite a higher ranked outfit.

Upsets May Be Repeated

On regular season performance the Orphans, winners of the first half of the season in league play; or the Bldg. 9212 outfit, second half winners, might be rated tops. However, some of the other teams have upset these aggregations and in a tournament have an even

chance to repeat the feat.

None of the teams were seeded in the tournament drawings, but the Orphans and Bldg. 9212 were drawn in different brackets. With 11 teams entered, it was necessary to have five byes in the first round of play, these positions being drawn by the All Stars, Bldg. 9212, Orphans, Dashers (the independent team in the tournament composed of employees in Bldg. No. 9204-1) and the Grocers. In case of postponements the entire schedule is to be moved back one night.

Sparks, Rusty 9 Open Play

The Sparks and Rusty 9 were slated to pry the lid off the tournament at 6 o'clock Tuesday night, followed by the Duds and Bldg. 9211 at 7:30 o'clock and the Isotopes and 49ers at 9 o'clock. These games are to be played on Midtown No. 1.

The Wednesday night schedule of second round games was slated for Midtown No. 2 diamond and was to have opened at 6 o'clock with Bldg. 9212 meeting the win-

ner of the Duds and Bldg. 9211 clash. Following this encounter the All Stars were to have played the winner of the Sparks-Rusty 9 encounter and the program concluded with the Orphans and Dashers meeting.

Losers Start Play Thursday

The one remaining second round game and opening of clashes in the loser's bracket are scheduled for Thursday night, September 6. The first tilt at 6 o'clock will see the Grocers tackling the winner of the Isotope-49er game, with action returning to Midtown No. 1. Losers of the tournament's opening games will meet at 7:30 o'clock with the defeated team being eliminated permanently. The 9 o'clock tilt will bring together the defeated teams in the Duds-Bldg. 9211 tilt, again with the loser being eliminated.

Play will be resumed next Tuesday night, September 11, with two games being scheduled for Midtown No. 1, the first starting at 7:30 o'clock and the second at 8:30 o'clock. These will be third round games in the top bracket with the winners going to the semi-finals and the losers to the bottom bracket.

Semi-Finals On September 12

The top bracket semi-final game is set for 7:30 o'clock Wednesday night, September 12, at Midtown No. 2. It will be sandwiched between the 6 o'clock contest and the 9 o'clock fracas between the losers of the top bracket third round games and teams progressing in the ranks of the one-time defeated. The next Thursday night program on Midtown No. 1 will see teams in the bottom bracket fighting for the right to advance to the finals and the privilege of meeting the undefeated combination in the top bracket.

The finals in the loser's bracket is slated for 8 o'clock Monday night, September 17, the only game on the schedule for the date.

Final Set September 18

The climax is scheduled for the following night, Tuesday, September 18, at 7:30 o'clock when the undefeated team in the tournament will meet the survivor of the loser's bracket. If the latter team is victorious the final game will be staged immediately on conclusion of the first tilt to determine the tournament winner.

The September 17 and 18 games are scheduled for Midtown No. 1 field.

slow pitch league at 7 o'clock Wednesday night, September 5, against the Oak Ridge Institute of Nuclear Studies team. Following the regular season it is expected that a tournament will be held by the eight teams in the loop.

123 Carbide Golfers Enter Tournament; Y-12 Lists 42

A total of 123 Carbide golfers from the three Oak Ridge plants will battle it out over the Oak Ridge Golf and Country Club course during the next four weeks in the annual Company tournament. The entry list included 42 from Y-12, 44 from K-25 and 37 from Oak Ridge National Laboratory.

Orphans Win Three In Ridge Tourney; Lose To K-25 Team

The Orphans softball team of the Y-12 Plant League won three games and advanced to the semi-final round of the Oak Ridge Class B tournament last week before bowing to the K-25 A Rams in an overtime, nine-inning game by the score of 3 to 2. The Isotopes, another Y-12 league outfit, won a pair of games before dropping a 4 to 2 decision to the General Electric outfit by a 12 to 6 count in a 10-inning game. The Y-12 All Stars, drawing a first round bye, were beaten in their only game by the General Electric lads, 11 to 10.

The Orphans lost their tilt to the K-25 outfit through a pair of costly errors. Previously the Y-12 team had whipped the Oak Ridge National Laboratory Engineers by 2 to 1, the Y-12 Sparks by 13 to 3 and K-25 Conditioning by 21 to 4. The Isotopes victories came over the ORNL Chemists by 4 to 2, and the K-25 All Stars by 9 to 7.

Both of the overtime games dropped by the Y-12 teams were thrillers. The Orphans tied a one-run lead by the Rams in the fourth and the teams battled right down to the wire before the K-25 lads eked out their slim triumph. The General Electric Powerhouse, they really are, had quite a scrap to stay in the park with the battling Isotopes but put on a late rally to short circuit the Y-12ers with six runs in the tenth.

Line scores of tournament games played last week by Y-12 teams follow:

ORNL Engineers	100	000	0	1	2	0
Orphans	000	020	x	2	3	0
All Stars	310	131	1	10	8	4
Gen. Elec.	050	420	x	11	9	2
Isotopes	200	400	0	4	6	3
ORNL Chemists	100	100	0	2	4	2
Gen. Elec.	020	101	200	6	12	13
Isotopes	001	103	100	0	6	8
K-25 A Rams	020	000	001	3	7	0
Orphans	100	100	000	2	7	2

RED PLANT IN CHINA SEEN

The Associated Press has reported that former Chinese Nationalist staff officer, Gen. Chou Yang-Chin, says that Russia is building an atomic plant in the Tianshan region of Sinkiang Province in China.

Drawings were made Wednesday for the championship and other flights and match play will begin immediately. First round matches must be completed by September 16, second round matches by September 23 and finals by September 30.

Season's average scores and qualifying scores of 86 are expected to earn places in the championship flight of 16 players. The other golfers will be placed in flights of eight each according to their scores.

V. M. Meece has the best Y-12 average with a 74 and is followed by Dorr, Bauman and Shugart, each with 78. Several others are below the 86 mark.

Slow Pitch Team Defeated By K-25; To Play ORINS

The Y-12 slow pitch team ran into a lot of trouble last week when they allowed the K-25 aggregation to pile up a five-run lead in the first two innings and then coast to a whitewash victory. Each team committed one error.

The Y-12ers are scheduled to close their regular schedule in the

THE GROCERS TEAM OF THE Y-12 PLANT SOFTBALL League is scheduled to make its debut in the plant tournament Thursday night. Front row, from left, Donald Ward, Albert Grindell, Fred Orazio, Brice Kinyon and Walter Walker. In the rear are Tom Crabtree, W. R. Winsboro, David Salmon, Lloyd Wilson, Harold Wesson, Bill McDonald and Bill Cobb.

Two Bowling Loops Open Play This Week; Others Next Week

Alley activities by the four Y-12 plant bowling leagues is scheduled to get underway this week and next with the D League slated to pry the lid off the season at 6 o'clock Tuesday night at the Jefferson lanes. The B League will follow with its inaugural session set for 6 o'clock Thursday night on the hardwood at the Oak Terrace.

The distaff side will get into action next Tuesday night, September 11, at 8:30 o'clock when the W League of women bowlers will start throwing on the Jefferson alleys and on the following night, Wednesday, September 12, the C League pin smashing will begin at Central.

Another League Looms

Plans are underway for organization of still another men's league for Y-12 bowlers as several teams and individuals have expressed the desire to form such a loop after the other leagues were organized. Y-12ers interested in such a circuit are urged to communicate with the Recreation Office, North Portal, telephone 7753, as soon as possible.

The four leagues operating are the same as rolled last season. The men's B League has 12 teams, the C and D Leagues eight each. The W League has eight teams, being expanded from the six-club circuit of last season.

League Teams Are Listed

The B League is composed of the Rippers, Bldg. 9211, Comets, Wolves, Wasps, Cubs, One - 91, Bumpers, All Stars, Tigers, Bums and Rebels. Teams in the C League are the Hooks, Guards, Moles, Short Circuits, Orphans, Hurricanes, Hornets and Thin Pins. In the D League are teams ANP Nos. 1 and 2, Engineering Nos. 1 and 2, Toppers, Old Men, Isotopes and Activators. Operating in the women's circuit are the Kemps, Mix-Ups, Hi-Balls, Controllers, Woes, Cracker Jax, Dodgers and Team X.

Following the opening nights of bowling each league will roll on the same night, same time and same location weekly throughout the season.

Gophers Take Three Points In Pin Loop; Season To End

The Gophers, a Y-12 team in the Summer Bowling League of Y-12 and K-25 teams, took three points from the K-25 Nuggets in the weekly alley session last Wednesday night and the Y-12 All Stars broke even with two points from the Slivers, another K-25 outfit. The Activators, the other Y-12 entry in the loop, lost three points to the K-25 Fizz Kids, but held to a tie for second place in the league standings. The league will finish its season this week.

K-25 keggers monopolized scoring honors for the night last week.

Cards Drop Final; Record For Season By Team Creditable

The Y-12 Cardinals brought their baseball season to a close last Wednesday night in Knoxville by dropping a 9 to 0 decision to the Tennessee American Baseball Congress championship V. F. W. team from Farragut. An unfortunate reversed decision by an umpire upset the Cards in the third inning of a previously scoreless battle and the Vets went on to score an easy victory.

The Cardinals, playing at a distinct disadvantage in many of their games during the season because of absence of key players through turnover of player personnel, work schedules or injuries, compiled a creditable record against strong opposition. Files of The Bulletin show that the Y-12ers won 14 and lost 15 in their Knoxville City League and Knox-Ridge League tilts.

The team started the season under the maanganship of Bill Burns, who piloted the team to the Oak Ridge championship last season. Illness forced Burns to resign the first part of July and he was succeeded by Paddy Peckman, veteran "old pro." The entire plant may be proud of the showing made by the diamonders during the season as every player, sometimes there were only nine on hand for games, gave his best at all times.

The league-leading All Stars, which won four points, posted a single game of 992 and a 2967 series. Bennett had high individual game of 233 and Smith's 627 series score was best.

League standing follows:

Team	W	L
K-25 All Stars	36	16
Activators	31	21
Slivers	31	21
Flub Dubs	29	23
Fizz Kids	28	24
Gophers	26	26
Nuggets	14	38
Y-12 All Stars	13	39

WANTS "GOOD OLD DAYS"

Editorially the New York Post welcomes news that recent atomic tests were successful, but contends that with the world situation as it is it is hard to contain a nostalgia for the era of the bow and arrow.

The Hole Truth

By
Evan Means

The fish picture of the week features Shift Supervisor F. P. Bender with a string of fish caught in company with Ray Ledford and J. L. Titlow. Sergeant Thomas, of the Guards, who was caught in the middle with these two once, says the absence of any fish in company with Ledford proves that he only goes along for the lunch. Thomas was kept too busy passing food to do any fishing. Maybe Bender threw it overboard early in the day. (The lunch, I mean.)

Other members of the Guard force have been doing some fishing since the last writing. Elbert Scott and M. L. Sullivan went down to Daytona Beach a couple of weeks ago and came back with a barrel of fish, according to Red Mays who found a traffic jam in Sweetwater with them in the middle of it. Most of the fish were king mackerel. Myrtle Beach, S. C., seems to be getting its share of Oak Ridgers, too, this year.

Sgt. W. C. Nelson missed a chance to win the crappie division in Tiller's contest week before last when he had a two-pound, one-ounce fish in the frying pan before he thought of measuring it and getting a picture of it. Reminded of his oversight, Nelson just shrugged and allowed, "Well, I couldn't eat one of those prizes, anyhow."

Since the fellows around Bldg. 9212 have taken all those trout out of the Clinch below Norris, TVA is getting 1,000 kilowatts extra out of the power plant because of the extra volume of water the river can handle. F. R. DeFord says it's done with worms.

K. B. Baker, of the Machine Shop, got in on some of the night fishing on Watts Bar recently, getting a nice string of crappie and striped bass. "Andy" Harmon, of Electrical Maintenance, bought a new lantern, a second-hand outboard and a supply of Lazy Ikes for his wife to lose and still hasn't caught a mess of fish.

W. C. Munsey, of Plant Electric, got a 5¼-pound bass out of Fort Loudoun the other day. A day or two before that he lost a wrestling match to a big blue cat which broke the leader as Munsey tried to beach it. He suffered no ill effects from a bath in the middle of the week.

George Ferrell is just getting out of the dog house after the crack he made when that six-

PLANT SHIFT SUPERVISOR
F. P. Bender proudly displays a nice string of fish recently taken from Douglas Lake in company with Guard Dept. Capt. Ray Ledford and J. L. Titlow, Electrical Maintenance. Seems as when the latter two get together it incites Evan (The Hole Truth) Means to write a column—so read his version of the event in the adjoining column.

pound, five-ounce baby girl was born. He said he had caught bass bigger than that. "Wrong Way" Ludwig had to put him up for three nights after the little woman got home from the hospital.

You have until September 15 to get your application in for the Norris Central Peninsula Deer hunts, to be held between November 19 and December 6. At last report there were still several places open. In the event there are more applications than places in the hunt, there will be a public drawing in Maynardville September 27. And I don't want to hear an answer like I got from Harvey Kite after he went on last year's hunt. His first remark when asked about his luck was, "Means, I'm ashamed of myself."

And that's the hole truth.

Why do they say, "Amusement tax?" There's nothing funny about it.

Continued from Page 2
the Oak Ridge Hospital, weighing six pounds and five ounces. . . . The division welcomes Wanda Wood to the roster. . . . Forrest Duncan is vacationing in Ohio, this week. . . . Hugh Sadler has returned from a week's vacation. . . . Harold Walchli and his family are visiting both his and Mrs. Walchli's folks in Clarendon, Pa. . . . Best wishes of the division go with Oliver Yonts, who is taking a year's leave of absence to do work on his master's degree at Louisiana State University, Baton Rouge, La. He came to Y-12 back in 1944 and obtained his bachelor's degree in physics at Southwestern University, Memphis, Tenn. . . . Horace Friedman, of the Analytical Laboratory, spent the week end in Hartselle, Ala. . . . Betty Esco went to Atlanta, for the holiday week end. . . . Gretchen Hamilton spent the week end in Chattanooga. . . . Jim Hibbits was in St. Louis, Mo., for the week end. . . . Nancy Shobe is vacationing in Dresden, Tenn., this week. . . . Elizabeth Hayes spent the week end in North Carolina. . . . Folks in Bldg. 9733-4 are already missing Martha McCombs, J. Wiley Charles and Roger Brotherton, who have moved to another building. . . . Get-well wishes go to Georgia Leonard and June Davis, who are off ill. . . . The department welcomes John White, Bill Dietrich, Francois Thornton, Thomas Phillips, Chester Spradlin, and Martha Childs to the roster. . . . Daisy Ward had her sister, Marie Brogan, from Boston, Mass., as guest last week. . . . Owen Killeen's parents, from Detroit, Mich., visited him last week. . . . Margaret Broom was on vacation last week in Spartanburg, S. C. . . . Elizabeth Edmonds had her brother and his family from Peoria, Ill., as guests last week.

Ed's Note. That's all for this time. We are sending Columnist Esther Moody home. She's been barking so much around the shop that it cannot be determined if she has a coon treed or has the croup.

SCIENTISTS TURN TO WAR

According to the Washington Post, the Canadian National Research Council has announced that the dominion's scientists, including atomic energy specialists, have turned most of their efforts to war work. It was the first official indication that Canada's atomic energy project at Chalk River, Ontario, may be engaged in war work.

A woman is as old as she looks before breakfast.

**Nearly 1,000 Resident Passes Issued Y-12
Family Members; Permits Still To Be Had**

Through last Friday, the Y-12 Badge and Pass Office had made pictures of 982 members of families of employees for issuance of the new resident passes for admittance into the Atomic Energy Commission controlled area. A

**Y-12 Picnickers
Pitch Parties**

LATE SUMMER ALWAYS IS the favorite time for picnics—and it was no exception for Y-12ers. These pictures show three parties; a group from Bldg. 9212, the Library and the Isotope Analysis Methods Laboratory.

Pictures Nos. 1, 3 and 7 show the picnickers from the Bldg. 9212 group. No. 1—What's better than watermelon for small fry? Here are Susie McIntosh, Demetria (Tiny) Wenzler, Tommy Maxwell, Peggy Thornton, Dee Keele, Karen Thornton, Sue Patterson, Kendall Maxwell and Jimmy McIntosh. No. 3—Relaxation is the theme of this picture. From left are Roger Brotherton, Pat Patterson and his daughter, Sarah Brotherton with her little son who is yearning for that bottle, Ed McCombs, Jim and Nell Charles. In the background taking it easy is George McMahon. No. 7—The gals at the party decide to stage a race, maybe to work off some of the picnic lunch poundage. From left are Jo Anne Wenzler, Rebecca Cole, Edna Frances Gililand, Helen Childress, Elizabeth Hauxhurst, Betty Wardell, Nell Trebilcox, Helen Greeter, Peggy Reeves and Billie Britton. Joe Wenzler is the "starter." This party was held at Valley View August 26.

Pictures Nos. 4, 5 and 6 are of the Laboratory party. No. 4—From left at table, enjoying succulent hot dogs, are Gwen Sue Griffin, David Griffin, Bonnie Griffin, Paul Griffin, Eloise Yonts and Oliver Yonts. In the background are little Helen Werner and her mother, Tessie Werner. No. 5—Source of those hot dogs is shown here with folks being Al Southern, David Southern, Linda Stukenbroeker, Gerry Keilholtz, Roberta Southern, Charlie Pepper, Gwen Sue Griffin, Oliver Yonts and Bob Rogers. No. 6—The Walchli family is caught in a moment of repose, Harold, Ruth and little Gary. The Laboratory folks enjoyed their picnic August 26 at Big Ridge.

Picture No. 2 is of the Library group. Around the fire from left are Berthie Cowden, Jane Uffelman, Judy Ward, Paul Ward, Bobby Ward, Maggie Mahoney, Frank Ballinger, Anna Sanford, Dottie Connor, Phyllis Finnell, Lennis Winchester, Martha Wilson, Shirley Reagan, Eunice Webster and Dan Bopp. In the right background are Don and Bobbie Jean Jessee. This picnic was staged at the Chapel-On-The-Hill grounds August 23.

All of the pictures were made by Y-12 Photographer Vince Moore.

total of 1,244 letters of invitation to members of employees' families to have the pictures made for the passes were sent out by the Badge and Pass Office, acting on information provided by employees.

Although the new passes became effective August 31 and the old admittance credentials expired on that date, members of Y-12ers' families desiring the new passes still may obtain them. These applicants may obtain a pass for admittance to the AEC controlled area by telephoning the Badge and Pass Office, telephone 7283, and making the request. Y-12ers who have asked for passes for members of their families are urged to see that such applicants report as soon as possible to apply for the permit.

When applying for the new pass and having the necessary photograph made, the applicant will be required to present the letter of invitation sent them and also show a valid state drivers' permit.

The decal stickers formerly needed for admittance of motor vehicles of employees to the AEC controlled area no longer are required. Admittance now will be by employees' picture badges and the new resident passes of family members.

**Rides Wanted
And Offered**

Ride Wanted—From Clinton, straight day shift. Wanda Wood, plant telephone 7191, home telephone 512-J.

Ride Wanted—Or would participate in car pool, from Harriman, straight day shift. Felix Henry, plant telephone 7616, home telephone 1355-W.

Ride Wanted—From Maryville, swing shift. B. O. Davis, telephone 7515.

Riders Wanted—From Knoxville, two shifts. Ruth Huddleston, telephone 7436.
